

To: All CADD Users

From: [MDT EISS](#)

Date: 9-22-10

Post Term: 30 days

Subject: Cross Section Composition Process

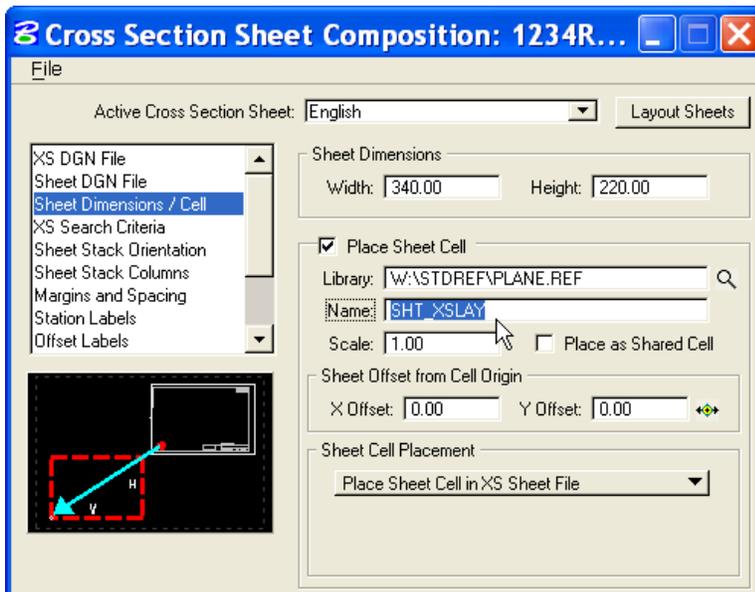

The cell name used for creating cross section sheets was changed; therefore, that name needs to be changed in the dialog box associated with that process.

Once changed it should be retained when save settings is clicked.

Files Affected: [Mtdprjmanager.vba](#)

User Action: Check sheet cell name during process. Old – SHTXSLAY New – SHT_XSLAY

Documentation:

This process is documented in the Geopak User Manual page 20-1. The attached shows the dialog box change needed.
