

Kagy Boulevard - S 19th Avenue to Willson Avenue

The purpose of the proposed project is to provide a safe and efficient facility for all users by reconstructing approximately 1.1 miles of Kagy Blvd from South 19th Ave to Willson Ave/South 3rd Ave. The project is needed to address current deficiencies and accommodate future demands for all modes of travel within the project's 20-year design horizon.

Project Highlights

- Functional Classification: Principal Arterial
- Speed Limit: 35 mph
- Existing Traffic Volume: 15,000 veh/day
- Design Year: 2040
- Design Year Traffic Volume: 19,000 – 25,000 veh/day
- Anticipated Timeframe for Construction: 2017 or 2018

Typical Section Alternatives

- Single-Lane (19,000 veh/day)
 - One travel lane in each direction
 - Median Options:
 - Raised center median with left-turn bays at intersections
 - Two-way left-turn lane (flush median)
- Multi-Lane (25,000 veh/day)
 - Two travel lanes in each direction
 - Median Options:
 - Raised center median with left-turn bays at intersections
 - Two-way left-turn lane (flush median)
 - No median

Intersection Alternatives

- Traffic Signals
 - Improved signals being considered at 19th Ave, 11th Ave, and Willson Ave
 - New signal being considered at 7th Ave
- Roundabouts
 - New roundabouts being considered at 11th Ave, 7th Ave and Willson Ave
- These intersection alternatives are being considered for each of the typical section alternatives listed above

Bike/Pedestrian Accommodations

- Standard bike lanes or separated bike lanes on both sides
- Multi-use pathways or sidewalks with boulevard separation on both sides
 - Boulevard and pathway/sidewalk width varies by the number of lanes and availability of easements
- Primary grade separated bike/pedestrian crossing at MSU Fieldhouse/Stadium Access (half-way between 11th Ave and 7th Ave)
- Potential secondary grade separated crossings at 11th Ave and 7th Ave, depending on number of lanes and selected intersection treatment

Other Project Features

- Landscaping
- LED Lighting
- Low Impact Development Stormwater System
